About the film

When a forgotten transmission reaches Earth, pilot Mira Sen sets out for a silent station at the edge of a dying star. With her route home disappearing, she must choose between the mission that sent her and the voice still calling from the dark.

An intimate story of distance, discovery and the people we find our way back to.

Make it a movie night

Choose your preferred language and screen format in the next step.

Released 23 October 2026

DESIGN HANDOFF · PLANNED BEHAVIOR

Selection is local, not a hold: enforce 1–6 seats and the chosen quantity. Proceed must hold all seats or none; start the configurable 8-minute countdown only after success. Availability and prices come from the server. Use hold expiry + server-time offset for the timer; at zero, verify booking status and return to the map if expired. Refresh availability every 5 seconds when built; clear contested selections. Only expose Available, Selected, Unavailable, Held by you and Blocked. These screens demonstrate intended UX, not implemented concurrency guarantees.
